DCYA CHILDCARE FUNDING PROGRAMMES INFORMATION AND FREQUENTLY ASKED QUESTIONS

Introduction

This document aims to summarise each of the Department of Children and Youth Affairs (DCYA) Childcare Funding Programmes:

Early Childhood Care and Education (ECCE): A universal childcare programme otherwise known as ‘free pre-school’,

Community Childcare Subvention (CCS), Private (CCSP) and CCS ‘Resettlement/Relocation’ (CSSR): Providing childcare funding support to low income and disadvantaged families in community (CCS) and private settings (CCSP), while also providing support to Resettlement/Relocation Programme Refugees in line with eligibility documents supplied by the Department of Justice and Equality.

Training and Employment Childcare (TEC) Programmes: Providing childcare funding support for parents participating in eligible ETB/Solas vocational training courses; Community Employment (CE) programmes or returning to employment.

Most of the information in this document is directed at childcare service providers, to use as instructions on how to administer the rules of the programme(s), however parents and guardians may also find it useful to understand the rules of the programmes.

The DCYA Childcare Funding Programmes are processed online via the Programmes Implementation Platform (PIP). The PIP system is administered by Pobal, on behalf of the Department. The approved childcare funding is paid directly to the childcare service and must be deducted directly from the service’s pricelist fee for the service provision. The service provider must display a Fees List that indicates the exact pricelist as well as the reduced price of the service based on the relevant approved programme funding i.e. the full price less the funding approved. A Service Calendar must also be displayed to show parents the days and weeks closed during the programme year. Parents must sign PIP Parent Declaration Forms to indicate that they understand the terms of the programme and that all child registration details are accurate.

Contact Details:

Any queries in relation to accessing services in contract under the DCYA Childcare Funding Programmes and the rules of the programmes should first be directed to the local City/County Childcare Committee (CCC). Please see the PIP Homepage on www.pobal.ie for CCC contact details.

Service Providers can also contact PIP Support at onlinesupport@pobal.ie or 01-5117222 for assistance in administering the rules of the Programmes as well as with any technical issues with their PIP Portal.

* Parents who qualify for Band AJ (with medical card) e.g. a parent in receipt of Jobseekers Benefit/Allowance (JB / JA) and with a medical card qualify for subvented childcare to a maximum of €50 subvention for full day-care per week (Band AJ). This cap applies where a child attends from 3 full days to 5 full days per week (Note: where a child attends for 1 or 2 full days only it will not be pro-rated). Parents in receipt of Jobseekers Benefit/Allowance (JB / JA) and do **not** have a medical card qualify for subvented childcare under Band B.

The following applies to Community Services only

** Situation: Parent receiving Basic Payments under the Supplementary Welfare Allowance Scheme, and awaiting a decision on a Jobseekers Benefit/Allowance claim: If the claim is successful attracts a full rate Band A eligibility, with a medical card (e.g. One Parent Family Payment) then the eligibility for that payment can be back dated to the September of that given academic year for which the basic payment applied. However, the successful claim, which must have been backdated to include the CCS snap-shot window, must be appealed as part of the CCS Appeals Process

*** GP visit card is now universal for children 0-6 and therefore will now only apply to Band B subvention eligibility for 6yrs+.

**** Domiciliary Care Allowance eligibility documents may be dated to within one year prior to the CCS eligibility window (or for CCSP, within one year prior to childcare start date)

***** Family Income Supplement (FIS) eligibility documentation will be accepted where the start date of the FIS payment is valid during the CCS eligibility window (for CCSP eligibility documentation will be accepted if FIS payment start date is valid within one month prior to the childcare start date).

Note for CCS: No Band is automatically applied to those parents on **Maternity Benefit**, partaking in a **Springboard course** and/or a **National Internship Programme (NIP/JobBridge)**, or in receipt of the ETB/SOLAS Training Allowance during the CCS Snap-shot window. The appropriate band will be decided on a case by case basis, based on the allowance received immediately prior to the course/programme/training/benefit.

Note for CCS Private: No Band is automatically applied to those parents on **Maternity Benefit**, partaking in a **Springboard course** and/or a **National Internship Programme (NIP/JobBridge)**, or in receipt of the ETB/SOLAS Training Allowance during the week the child is registered for the CCS Private Programme. The appropriate band will be decided on a case by case basis, based on the allowance received immediately prior to the course/programme/training/benefit

What if?	Answer	Documentation Required	Please note
What does after-school with transport include?	With transport means that the child will be transported to school (drop-off) and from school (pick-up) by the service. The Parent is not required to pay any additional costs for either of these services. The parent can choose either or both transport services.		
The local school is within walking distance to my service, can I still claim after-school with transport if, for example, a staff member is dropping-off and collecting the child?	Yes, as long as the service provider incurs an additional cost by providing the transport.		Where there is no extra cost to the service to facilitate transport then a transport option should not be applied
I have a parent eligible for CETS who is asking for part-time school age with transport but it is not an available option in the session types?	CETS part-time childcare does not include transport. Parents must choose between having the extra hours of childcare through a part-time place (i.e. more that 3.5hrs)and paying for transport as an optional extra or choosing the after-school with transport session and paying for the extra care (time) needed beyond 3.5hrs

TEC Parent Extending Eligibility within the Programme Call Year	The existing registration should be allowed to expire on PIP. A new registration covering the extended eligibility dates should be submitted in PIP, even if it's only a short extension.	New eligibility documentation should be submitted and approved. If the new eligibility extends beyond programme call year – follow instructions in the previous FAQ above.	Extension of eligibility is effectively a request for a new place and so approval is based on programme up-take on a first come first served basis.
What if?	Answer	Documentation Required	Please note
When does an ASCC letter of eligibility expire?	ASCC eligibility letters must be first registered for approval within 26 weeks of the date of the letter. As soon as they are used once there is no expiry date. A maximum of 52 weeks allowance is allowed (which can include 10 of those weeks topped up to full-time childcare) but they do not need to be used over consecutive weeks.		
TEC Parent didn't use all 52 weeks eligibility for ASCC – can s/he register child(ren) again at a later date to avail of the rest?	Yes. Once ASCC childcare was activated for the first time within 26 weeks of the date of the eligibility letter then the parent can avail of ASCC for a maximum of 52 weeks over any period e.g. the parent could use 20 weeks and then stop and after 6 months register again for another 32 weeks. The eligibility only expires once the 52 weeks are exhausted.	Register the child with a Registration request providing either a copy of the ASCC eligibility letter or the original PIP Registration ID.	*Note: The 10 weeks' full-time childcare available on ASCC are available once only and must be used within the 52 weeks a child is registered on the Programme. For example if 52 weeks' ASCC without any top-up have been used then no ASCC fulltime (top-up) childcare can then be used.

Service does not want to give a parent subvention prior to the subvention Band rate being approved by the DCYA?	Services providers are not obliged to give subvention until the DCYA approve a Band. However the parent must be refunded the full subvention amount once the registration on PIP has been approved a Band.		
Service wants to give a parent the subvention before bands are approved?	If a service provider wishes to oblige the parents/guardians by giving them subvention on their childcare costs prior to the bands being approved by DCYA, they do so at their own risk and are encouraged to ask the parent/guardian for documentary proof of the parent/guardian's CCS eligibility as reassurance that the band requested is likely to be approved.	Please refer to pages 3-6 of this document on CCS eligibility. Documents showing CCS eligibility may be attached to the child registration on PIP.	Please note, that DCYA will only approve funding on the verified band, if an incorrect band is assigned by a service and subvention is given to the parent at this rate, it may impact on a service's sustainability.
